

Important Notice About ERASMUS Program

- i. Students may receive credit for only elective courses at the host university, including free, non-technical, and technical electives. Applications from candidates who are not required to take at least six elective courses will not be approved.

- ii. The Department of Aerospace Engineering expects transfer students to demonstrate academic achievement up to the semester of application. Therefore, only students applying for their 3rd or 4th years of study with a CGPA of at least 3.00 will be approved.

- iii. Students can only apply to universities that offer a significant number of courses in English to achieve 30 ECTS credits (equivalent to 18 METU credits), unless the student provides documentation proving that they can successfully follow classes in the language of instruction at the host university.
